

## Material Safety Data Sheet

**MSDS:** 00007-1

**Status:**

**Date :** April 26, 2007

Clairol, A Division of P&G

One Blachley Road

Stamford, CT 06922

**Emergency Telephone Number:**

(203) 357-5678

**Transportation Emergency:**

Call Chemtrec 1-800-424-9300

This sheet has been prepared in accordance with the Requirements of the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

### Section I - Categorization

**Category:** Shampoos.

**Pertinent Text:** Viscous colored liquids or emulsions containing surfactants to cleanse the hair.

**Product Names:** Shimmer Lights Shampoo

### Section II – Ingredients

Shampoos generally contain the following hazardous ingredients (1% concentration or greater; 0.1% for carcinogens):

CTFA NAME	CAS#
LAURAMIDE DEA	120401
SODIUM LAURYL SULFATE	151213

### Section III - Physical/Chemical Characteristics

**Specific Gravity (H<sub>2</sub>O=1):** 0.9-1.2

**pH:** 5.5 –6.4

**Solubility in Water:** Highly miscible.

**Appearance and Odor:** Fragranced liquids or pourable emulsions.

### Section IV - Fire and Explosion Hazard Data

**Flashpoint:** >200<sup>0</sup>

**Unit:** Fahrenheit

**Type:** Not applicable.

**Method:** closed cup

#### Fire Fighting Procedures:

Extinguish fires with ABC all-purpose extinguisher. The type of extinguisher used should be in conformance with local fire regulations. Fire fighters should use self contained breathing apparatus in enclosed areas.

#### Unusual Fire and Explosion Hazards:

None.

#### Physical Hazards:

None.

### Section V - Reactivity Data

**Stability:**

Stable.

**Conditions to Avoid:**

None.

**Incompatibility (Materials to Avoid):**

Not applicable.

**Hazardous Decomposition or By Products:**

None.

## Section VI - Health Hazards and Hazard Data

The TLV of the mixture has not been established.

### 1. Effects of Acute Accidental Exposure

#### Eye Contact:

Eye irritant.

#### Skin Contact:

Potential skin irritant.

#### Inhalation:

Not applicable.

#### Ingestion:

Slightly toxic.

### 2. Effects of Chronic Exposure

National Toxicology Program studies on diethanolamine itself and fatty acid condensates containing free diethanolamine (DEA) (lauramide and cocamide diethanolamines) indicated an increased incidence of kidney and/or liver tumors in mice dermally exposed for their lifetime. The significance of these findings and their potential relevance to humans are not clear and further studies are in progress. Diethanolamine or its condensates did not induce tumor in rats. In the interim, the US CIR, which had previously considered these materials as "safe as used", has expressed reservation over NTP's conclusions and saw no need to revise its conclusion until several outstanding questions on the NTP methodology are answered. For purposes of chronic exposure under the OSHA Hazard Communication Standard, these are untested mixtures. These products have been used extensively by consumers and Beauty Care is not aware of any significant adverse effects.

### 3. Carcinogen Status:

OSHA: No

NTP: Yes (DEAs)

IARC: DEA is not Classifiable (Group 3)

### 4. Route of Entry:

Inhalation: No

Ingestion: Yes

Skin: Yes

5. Pre-existing dermatitis would likely be made worse by exposure to these products.

### 6. Emergency and First Aid Procedures

#### Eye Contact:

Remove contact lenses, if used. Flush immediately with plenty of water for 15 minutes. Get medical attention IMMEDIATELY.

#### Skin Contact:

If spilled, wash skin immediately with soap and water (do not use solvents). Change into clean clothing. If skin reaction develops, contact dermatologist.

#### Inhalation:

Remove person to fresh air. Increase ventilation.

#### Ingestion:

Rinse out mouth with water and administer large amounts of milk. Contact Poison Control Center.

## Section VII - Precautions for Safe Handling and Use

### Steps to be taken in Case Material is released or Spilled:

Contain spill and promptly clean up. Flush with water and wipe with towel or rinse to drain. Floor can be slippery when wet.

### Waste Disposal Method:

Products covered by this MSDS are considered non-hazardous waste according to RCRA. Additionally, disposal should be in accordance with all applicable Local, State and Federal Regulations.

### Precautions to be Taken in Handling and Storage:

Store products in even, normal temperatures. Keep containers tightly closed.

## **Section VIII - Control Measures**

### **Ventilation:**

Exhaust system ventilation should be adequate to avoid buildup of vapors.

### **Hand Protection:**

Use impervious gloves to avoid possible skin reaction.

### **Eye Protection:**

Avoid contact with eyes. Use protective eyewear, if splashing is possible.

### **Other Types of Protection:**

Not applicable.

### **Respiratory Protection:**

Avoid inhalation.

### **Work Hygienic Practices:**

Always follow good hygienic work practices. Avoid all eye, clothing, and prolonged skin contact with products. In case of contact, rinse thoroughly with water. Promptly clean up all spills.

## **Section IX - Transportation Information**

**DOT Class:** Not regulated.

**IMDG:** Not regulated.

**IATA/ICAO:** Not regulated.
