UEL: N/A

Extinguisher Media: All standard fire fighting media.

Special Fire Fighting Procedures: If leak/spill hasn't ignited, use water spray to disperse vapors and protect

people attempting to stop the leak. Water spray may be used to flush spills away from exposure and to dilute spills to non-flammable mixtures. In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece in pressure demand or other positive pressure mode. Water can be used to

extinguish flames and cool fire-exposed containers.

Unusual Fire and Explosion Hazards: Above flash point, vapor-air mixtures are explosive. Vapors can flow

along surfaces to ignition sources and flash back. Sealed containers

may rupture when heated. Sensitive to static discharge.

Section 4. Reactivity Hazard Data

Stability: ☑ Stable ☐ Unstable

Conditions to Avoid: Keep away from heat, sparks and flame. Avoid any source of ignition.
